SiT Training Pilots: Discover the Results!

Green skills in action across 7 European countries

The SiT project has successfully completed its training pilots in Bulgaria, Croatia, Estonia, Germany, Greece, Italy and Spain, testing innovative learning approaches to support the green transition of the TCLF sectors.

The training combined online courses (MOOCs), Project-Based Learning (PBL) and Work-Based Learning (WBL), connecting theoretical knowledge with practical industry challenges.

SiT Training Pilots in Numbers:

- **715 learners enrolled in the online courses**
- **270 successful course completions**
- **169 certificates awarded**
- **367 participations in blended learning and project-based activities**
- **63 participants in work-based learning experiences**
- **over 4/5 average participant satisfaction rating**

The results highlight the value of combining flexible online learning with hands-on activities, industry collaboration and mentoring to develop green and transversal skills.

Want to learn more? The SiT Training Pilot Final Report, now available on the results section of SiT website, presents the main achievements, participants' experiences and lessons learned, together with recommendations for future training initiatives. Check it out!

SiT Partners Meet in Šibenik Croatia 29–30 October 2026

Final Transnational Project Meeting

On 29–30 October 2026, the SiT partnership gathered at the **Šibenik University of Applied Sciences in Croatia** for the project's final Transnational Project Meeting.
With the project approaching its conclusion, partners reviewed the progress achieved and coordinated the remaining activities, focusing on:

- **Impact and dissemination**: assessing the project's green and social impact and planning the final events.
- **Lessons learned**: sharing success stories and practices that can be replicated in other educational and industry contexts.
- **Long-term sustainability**: exploring how SiT's training resources and results can continue to benefit learners, training providers and TCLF businesses.

The meeting offered an opportunity to reflect on the partnership's achievements and agree on the final steps to ensure that SiT's results remain accessible and useful beyond the project's lifetime.
